26	27 Danbury CT Propellers	28 East Windsor, CT AOPA-Do The Right Thing	29	30	31	

FAA’S PILOT PROFICIENCY AWARDS PROGRAM “WINGS”

Who may participate? Pilots holding a private certificate or higher. Includes: airplanes, seaplanes, rotorcraft, gliders, lighter than air, and ultralights. **Why participate?** Regular proficiency training is essential to the safety of all pilots. In addition, completion of the “WINGS” program satisfies the requirements of FAR 61.56 (Flight Review). Be in touch with your strengths and weaknesses. **What are the requirements?** Attend an FAA sponsored safety seminar and receive 3 hours of flight instruction; an hour each on: take offs and landings, instrument flying, and basic airwork. All requirements must be completed within a 12-month period. Every 12 months, you can achieve another phase of the “WINGS” program. The requirements are the same for each phase. Receive a set of “WINGS” and a certificate for each phase. Consult Advisory Circular 61-91H for details.

FUEL MANAGEMENT

TUESDAY, MARCH 7, 2006 @ 7:30 PM

INTERSTATE AVIATION/ROBERTSON FIELD/PLAINVILLE, CT

As strange as it may seem to most pilots, fuel "mismanagement" is still contributing to accident statistics. This program will address fuel management from the simplest to the most complex. It provides information that can be used to your advantage before, during, and after each flight. Another good "refresher" on a subject we often take for granted.

CFI WORKSHOP/ CROSSWIND LANDINGS

THURSDAY, MARCH 9, 2006 @ 7:30 PM

DEPT OF PUBLIC SAFETY/DIVISION OF HOMELAND SECURITY HANGAR/269 MAXIM RD

BRAINARD FIELD/HARTFORD, CT (Park at east end of hangar)

It happens every spring! The strong, gusty crosswinds combined with rusty pilots after the long winter spells TROUBLE! Inspector Jim Adams will facilitate this workshop where we identify the many areas of concern at this time of year and make sure we have solutions for each and every challenge. Shouldn't you be there? Open to all pilots.

THE CARE AND FEEDING OF PROPELLERS

MONDAY, MARCH 27, 2006 @7:30 PM

MIRY BROOK VOLUNTEER FIRE HOUSE/MIRY BROOK ROAD/DANBURY AIRPORT/DANBURY, CT

How much does the average pilot know about the inspection and operation of this vital aircraft component? Not enough, would be the honest answer from most pilots. Ron Porciello from New England Propeller Service will present an informative session on pre-flight tips, propeller damage issues, and a question and answer period to help "bring you up to speed" on your knowledge and understanding of propellers. Bring your questions.

AOPA AIR SAFETY FOUNDATION PRESENTS-"DO THE RIGHT THING"

TUESDAY, MARCH 28, 2006 @ **NOTE 7:00PM START TIME**

EAST WINDSOR HIGH SCHOOL AUDITORIUM/ROUTE 5/ EAST WINDSOR, CT

If there was one crucial skill that could cut your chance of having an accident by 75%, would you want to learn it? "Do the Right Thing: Decision Making for Pilots" takes direct aim at poor pilot judgment, the root cause of many—if not most—general aviation accidents. In this lively two-hour seminar, an ASF professional presenter will reveal no-nonsense strategies for breaking the accident chain early, avoiding the really tough calls, and preventing small mistakes from becoming big problems. Then, using compelling interactive DVD scenarios, you'll have an opportunity to practice your skills by making choices for the scenario pilots as they contend with some all-too-real predicaments. *Caution: Some scenario scenes may not be suitable for non-pilots or nervous flying companions.*

Looking for the closest Aviation Medical Examiner to where you work or live?
Try <http://www.faa.gov/pilots/amelocator/>

Need TFR information, FAA publications, forms, employment information, etc? Check out www.faa.gov for a wealth of information that is readily available to you.

FAA Safety Program Airmen Notification System (SPANS)

Provides airmen with Safety Program information and notification in the timeliest manner possible.
Provides easy access to safety seminar and event information and online registration where appropriate.
Provides an easy way for airmen to make important suggestions to the Safety Program.

WE NEED YOU TO REGISTER NOW AT: <http://faasafety.gov/>

Other local sources of seminar information include:

1. The Atlantic Flyer aviation newspaper or Aviation Digest
2. Windsor Locks FSDO 860-654-1000 Selection #4

EARN YOUR WINGS! Regular proficiency training is essential to the safety of all pilots and their passengers. The objective of the Pilot Proficiency Awards Program is to provide pilots with the opportunity to establish and participate in a personal recurrent training program. Join your fellow pilots who recognize the need for recurrent flight training. Congratulations to this month's recipients.
