FAA'S PILOT PROFICIENCY AWARDS PROGRAM "WINGS"

Who may participate? Pilots holding a private certificate or higher. Includes: airplanes, seaplanes, rotorcraft, gliders, lighter than air, and ultralights. **Why participate?** Regular proficiency training is essential to the safety of all pilots. In addition, completion of the "WINGS" program satisfies the requirements of FAR 61.56 (Flight Review). Be in touch with your strengths and weaknesses. **What are the requirements?** Attend an FAA sponsored safety seminar and receive 3 hours of flight instruction; an hour each on: take offs and landings, instrument flying, and basic airwork. All requirements must be completed within a 12-month period. Every 12 months, you can achieve another phase of the "WINGS" program. The requirements are the same for each phase. Receive a set of "WINGS" and a certificate for each phase. Consult Advisory Circular 61-91H for details.
